Californian buys medical building

A California investor has paid \$1.28 million for the Ohio Medical Group office building on Dewhurst Road in Elyria. The investor, identified in property records as Stephanie Kay Severson, bought the 7,500-square-foot building Sept. 4 as part of a 1031 exchange. Such deals involve selling one property and buying another within a limited time to defer paying tax on any gains. The local seller, Elbert Investments LLC, was represented by Bob Havasi and Dan Cooper of the Cooper Commercial Investment Group of NAI Daus.
